Kayla Craft, Stewart County Coordinator

Education: B.S. Family and Consumer Sciences, University of Georgia

Programming focus: Chronic Disease Prevention/Healthy Lifestyles, Food Safety and Preservation, Positive Development for Individuals, Families and Communities, Economic Well-being for Individuals and Families, Healthy, Safe and Affordable Housing Environments

While I try to do programming in all areas of Family and Consumer Sciences, the greatest needs here in Stewart County are with Chronic Disease Prevention and Positive Development for Children and Families. So few people in rural Stewart County have access to resources regarding nutrition and health care, and in an effort to remedy that, Diabetes Cooking Schools and general nutrition classes are a vital part of Stewart County’s Family and Consumer Sciences program.

County media: The Stewart-Webster Journal.
