Instructions for Students to Obtain Continuing Education Contact Hours for the Essentials for Healthy Homes Practitioners Course

The National Center for Healthy Housing offers the Essentials for Healthy Homes Practitioners course to professionals from a variety of fields within public health, environmental health and housing.

The purpose of the course is to help you understand the connection between health and housing and how to take a holistic approach to identify and resolve problems, which threaten the health and well-being of residents. It identifies root causes of health problems in a home and links them to seven principles of healthy housing: keep it dry; keep it clean; keep it pest-free; keep it ventilated; keep it safe, keep It Contaminant-Free; and maintain the house.

This course has been approved for continuing education hours for the following professionals:
