Open forum discussion:

Alan Walsh facilitated discussion around initiative planning for 2019. He would like for our committee members to really “know” some key facts about the students (did they come from another major, what are their aspirations etc.). This will help with the mentorship piece our committee is wanting to bring - and we need to know our audience. Lisa will get with Sherle to develop a plan of action (whether that is creating a survey etc).

Members also noted the need to grow the program. Recruiting students’ is essential. The committee would like to invite advisors to the networking event on January 31st. Lisa to get with Sherle to see how we can make this happen.

Next call : January 10th from 3 – 3:30 PM

Thank you and Happy Holidays!!!
