To find what courses are offered each semester:

1. Go to Athena.uga.edu
2. Click on **Class Schedule** *(NOT Course Catalog)*
3. Under Search by Term, select the semester and year; Submit
4. Under Subject, select the Department, e.g. for Nutritional Sciences, select NUTR
5. For Course Number, enter the course you are interest in, e.g. 8900 for NUTR Seminar class. Select Class Search at bottom.
6. If you leave the Course Number box blank, and select Class Search at bottom, you will see all of the courses taught in NUTR for the semester that you selected.

*Course Catalog is a listing of all of the courses approved to be taught in a given Department. But some of these courses are not taught each semester, or even each year.*

**Program Requirements**

Requirements include a minimum of 45 semester credit hours as follows: at least 33 hours of course work and 12 hours of thesis and related research. A minimum of 18 credit hours in Nutritional Sciences, 6 credits of statistics (required minimum), 3 credits of physiology or 3 credits of biochemistry or 3 credits of cell biology, and a minimum of 16 credit hours of course work at the 8000 or 9000 level. In consultation with their Advisory Committee, students with credit in NUTR 4100, Micronutrient Nutrition, or another course in vitamin and mineral nutrition may substitute another graduate level course in NUTR.

**NUTR courses (18 credit hours)**

**Required NUTR courses (12 credits)**

^6100 3 cr  Micronutrient Nutrition (may be substituted with NUTR course if taken as undergraduate)
*6400 3 cr  Advanced Macronutrients
*8560 3 cr  Proposal Writing
*8900 3 cr  Seminar Nutritional Sciences

**Elective NUTR courses (choose 6 credits)**

^6050 3 cr  Optimal Nutrition for the Life Span
^6070 1 cr  Research Methodology in Human Nutritional Sciences
^6200 3 cr  We Are What We Eat
^6220 3 cr  Nutrition in Physical Activity, Exercise, and Sport
*6230E 3 cr  Current Issues in Sports Nutrition
*6240E 3 cr  Nutrition and Obesity Across the Life Span
^6500 3 cr  Medical Nutrition Therapy I
^6510 3 cr  Nutrition Related to the Human Life Cycle
^6520 2 cr  Clinical Nutrition Interventions
^6530 4 cr  Medical Nutrition Therapy II
^6540 3 cr  Public Health Dietetics
Nutrition Health and Aging
Nutritional Genetics
Metabolism and Physiology of Energy Balance and Obesity
Food and Nutrition Policy
Foodservice Procurement and Financial Management
Management of Foodservice Organizations
Cultural Aspects of Foods and Nutrition
Food Sanitation and Safety
Nature of Food
Food Choices and the Consumer
Sensory Evaluation of Food
Experimental Study of Food
Food and Nutrition Education Methods
Childhood and Adolescent Nutrition
Nutrition Intervention
Weight Management Coaching
Nutrition and Pharmacotherapy for Disease Management
Nutritional Epidemiology
Public Health, Physical Activity and Nutrition Interventions
Nutrition, Physical Activity, Exercise, and Sport Internship
Food & Nutritional Biochemistry
Advanced Nutrition in Physical Activity, Exercise, and Sport
Nutrition and Disease Processes I
Nutrition and Disease Processes II
Survey of Obesity and Weight Management

*These apply towards the required 12 credit hours of graduate only courses
^Cannot be repeated if taken as an undergraduate. Does not apply towards the required 12 credit hours of graduate only courses.

Courses in Supporting Area (15 credits minimum) to include:

- **Required (9 credits)**
  - Statistics choose 6 credits from potential courses [http://www.fcs.uga.edu/docs/Statistics_courses_available_for_FDN_students.pdf](http://www.fcs.uga.edu/docs/Statistics_courses_available_for_FDN_students.pdf)
  - Physiology (3 credits) OR Biochemistry OR Cell Biology (3 credits)
- **Electives (6 credits)**
  - Graduate courses in area of interest

Dissertation: 12 required credits
