Housing Needs Assessment

Meet with the people who know what they're doing

Questions for the experts:

- What do you do about the homeless population?
- How does the Georgia Housing Voucher Program work?
- What do you do for urgent needs like finding shelter for the homeless?
- How are you addressing mental health with the homeless or giving them access to needed resources in order to gain housing?
- Can you provide some details about how to start and run a land bank?
- How do you address code and aesthetics to make housing development more affordable?
- How do you handle annexations? Do you try to deter people from that and encourage redevelopment and infill instead?
- Can you give us more details about how the CHIP grant works?

Affordable Housing Committee

Freshman Presentation GICH Fall Retreat 2024

Established Housing Priorities

Develop the skills and programming to support aging in place and housing stability for seniors.

Study and collect St. Marys specific data on workforce housing needs.

More clearly understand and articulate our community development needs.

Parlay code enforcement efforts to community assistance programs while limiting the recurrence of neighborhood blight.

Better understand the housing needs of our neighbor, the Naval Submarine Base of Kings Bay.

Camden County Housing Study Statistics

A projected gap/need of 180 affordable housing ownership units (priced below \$150,000 and for incomes less than \$35,000) within the next 5 years.

Based on the County's current renter mix, the private market will be UNABLE to meet the needs of at least 49% of the future rental unit needs over the next 5 years.

34% of County homeowners have incomes less than 80% Median Family Income (MFI, \$66,500 for a family of four) and 64% of renter households have incomes below 80% MFI.

Among the 2,870 existing home-ownership units with values affordable to very low income households, only 800 (or 28%) were occupied by such individuals, higher income households occupied 72 percent of lower-valued homes.

Spring 2024 Retreat – Takeaway Goals

Goal #1. Create and complete outreach and education efforts toward citizens and elected officials to gain community buy in, increase awareness & strengthen connections

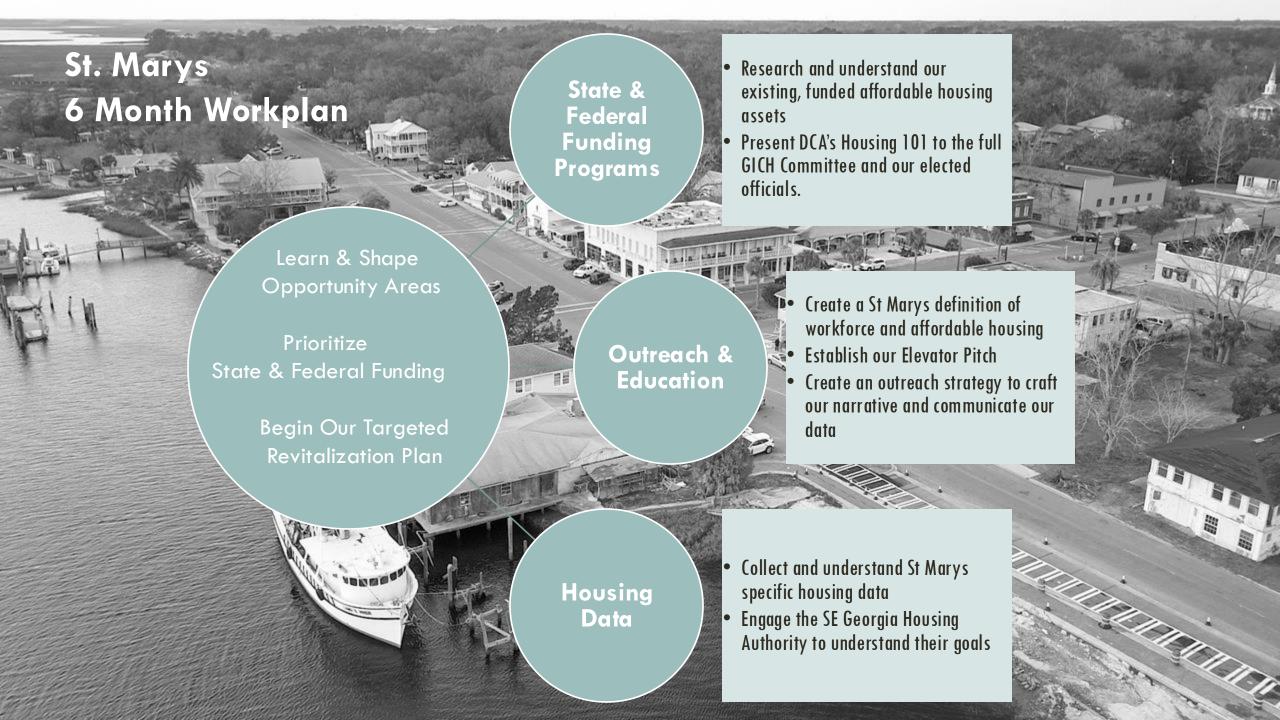

Goal #2. Establish our elevator pitch! Create the narrative and public messaging around our housing efforts.

Goal #3. Understand State and Federal funding programs and how they would apply to St. Marys housing priorities.

Goal #4. Engage other GICH communities to see how/what they did to administer their programs.

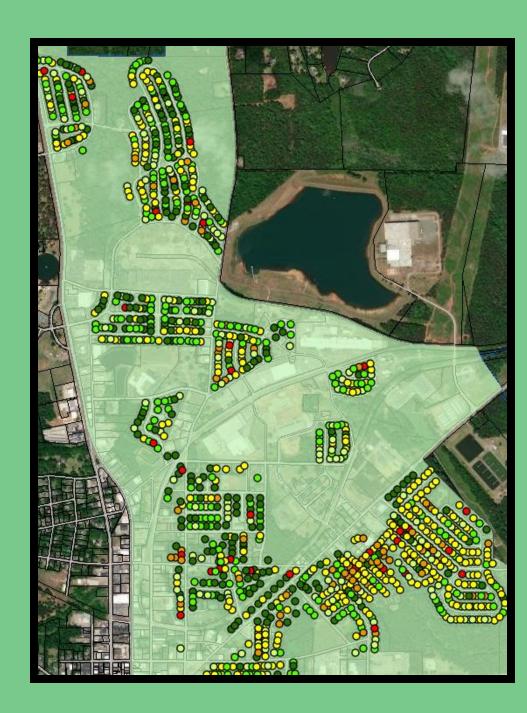

How the Georgia Initiative for Community Housing (GICH) can help more people find a HOME in thomaston

Canton Housing Team

The Canton Housing Team was established in 2022 when the City of Canton was accepted into the Georgia Initiative for Community Housing Program. This three-year program provides collaboration and technical assistance to help communities create and implement a locally-based plan to meet their housing needs.

GICH helps communities improve their quality of life and economic vitality through the development of community-driven housing and revitalization strategies. This is achieved through technical assistance, collaboration, expert presenters, training, facilitation, consensus building, networking, and mentoring.

"Our local GICH team of over a dozen community stakeholders stands ready to roll up our sleeves and get to work. Canton has a shortage of attainable/affordable housing, and with the larger GICH family's assistance and guidance, we're confident we will tackle many housing and community development issues by working together as a team. As they say, it takes a village!"

Housing

Public Sector Areas

09/06/2024 DRAFT

Public Sector Initiatives

Based on recommendations from recent housing studies and initiatives in Chamblee, stakeholder and community input during the comprehensive plan update process, and utilizing discussions and information gathered during the Georgia Initiative for Community Housing (GIHC), a set of key housing initiative, policies, and strategies were developed. The map on the following page highlights in orange areas of the City that include pockets of naturally occurring affordable housing that should be preserved or enhanced. Some of the public sector housing strategies outlined should be targeted specifically in these areas, while others could be broader or Citywide.

Public Sector Action Items

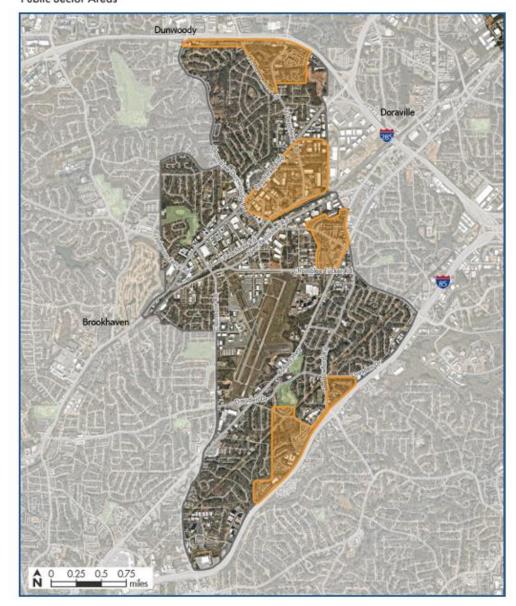

- Update the Unified Development Ordinance (UDO) to require or encourage a more diverse mix of housing types, styles, and sizes
- · Explore public-private partnership for the development of new affordable housing
- . Directly fund or partner with others to stabilize existing affordable housing
- · Consider requiring a community benefits agreement for development within certain areas
- · Partner with existing Land Bank to preserve existing affordable or assemble land for new development
- · Create a housing authority, housing trust, or other mechanism/organization focused on housing affordability
- · Consider City-led acquisition of existing affordable housing
- Establish a residential revolving loan fund or similar funding program to support facade and facility improvements with the goal of stabilizing of affordable housing

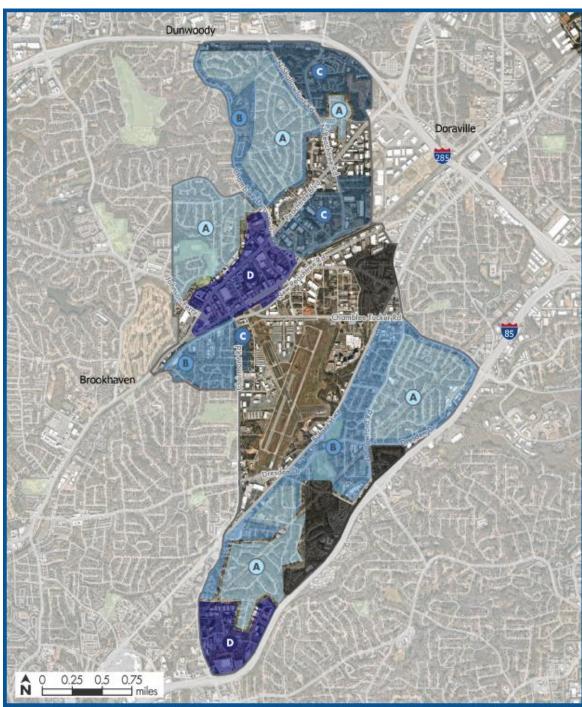

Comprehensive Plan Update...

Housing

- Broad support for addressing housing affordability
- Public and private solutions
- Public focus on naturally occurring and new affordable housing
- Private focus on encouraging more diverse housing types and more density in targeted areas
- Still important to protect existing single-family neighborhoods

DDA Development Incentives

 Chamblee was selected to work with a group of six Georgia Tech Public Policy students to work on a client-focused policy-relevant project that will serve as their Senior Capstone Project. The students use the first semester to work on a policy proposal for the City, and the second semester to complete the work they proposed.

- The Team's goal is to:
 - Provide recommendations that help the City of Chamblee create policies and strategies that encourage the development/retention of affordable housing.

NOAH Inventory/ Citywide Housing Inventory

Heirs Property Inventory

- Met with Georgia Heirs Property Law Center
- Staff will leverage the Citywide Housing Inventory to identify potential heirs properties

Objectives:

- Identify Potential Heirs Property
- Educate Chamblee Residents on the importance of having a will and about the issues that arise with Heirs Property
- Develop and begin providing program to address current and future heirs property

HEIRS PROPERTY

Is the title of your home in your name? Do you have a will? If the answer to either of these questions is no, you could be affected by Heirs Property.

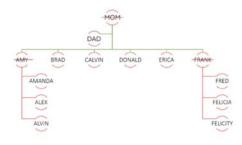

WHAT IS HEIRS PROPERTY?

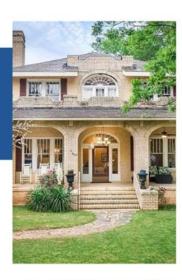

Heis Property refers to a home or land that passes from generation to generation without a legally designated owner through a will or deed, resulting in ownership divided among all living descendants in a family.

HEIRS PROPERTY IS CREATED WHEN:

- The owner dies with a will leaving property to multiple relatives; or
- The owner dies without a will so the property passes to heirs at law

The recorded deed for the property is typically in the name of the deceased relative but without a will it results in a "fractured" title shared among multiple family members.

IMPLICATIONS FOR HEIRS

- · Face increased risk of forced sale and eviction
- Cannot sell or mortgage property without agreement of all heirs
- Cannot qualify for rehab programs or secure financing for needed repairs
- Cannot participate in government programs offered by USDA, FEMA and other agencies
- Cannot qualify for loss mitigation programs when facing foreclosure
- Family relationships may be permanently ruined

Montezuma GICH/HOME Program

HOME-Housing Opportunities in Montezuma for Everyone

GICH@dca.ga.gov

HOW WE HELP

- Technical assistance
- Training
- Facilitation
- Networking
- Mentoring

WHAT YOU'LL DO

- · Identify issues and needs
- · Develop new ideas and solutions
- Learn about best practices and available resources
- Produce community housing plan
- · Begin implementation of action plan
- · Participate in two annual retreats

Program Overview

The Georgia Initiative for Community Housing Initiative (GICH) offers communities a threeyear program of collaboration and technical assistance related to housing and community development. The objective of the initiative is to help communities create and implement a locally based plan to meet their housing needs. Launched in 2004, GICH grew out of Georgia's experience with the National League of Cities' Affordable Housing Program and the success stories that were celebrated at the annual Magnolia Awards for Excellence in Affordable Housing. The Archway Partnership, Carl Vinson Institute of Government, and UGA Extension provide in-kind support, and the program is partially funded by a USDA Rural Development RCDI grant.

What is GICH?

- GICH is a three-year education and technical assistance program designed to teach communities about affordable housing and how to stimulate housing investment
- GICH is run as a partnership with DCA, UGA, and GMA
- Over their three years, communities develop an actionable housing plan
- In GICH's 20 years, we have had 96 communities participate

GICH/HOME

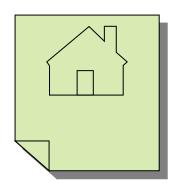

Steps Forward:

Had a community meeting and invited all citizens. DCA rep was in attendance along with RVRC members.

Had a meeting with DCA & RVRC discussing Multi-Use CDBG grant next cycle and applying for a CHIP possibly thru RVRC.

Put a short housing survey on our local Facebook page to see what citizens think of homeownership and the main concerns and challenges they have. We haven't had many fill out the survey thus far. Going to promote it on a few other outlets.

Biggest Challenge

Promoting homeownership & finding developers

Scoring on tax credits for small cities (school system)

GICH Community DCA Benefits

- CHIP
 - Bonus points on applications
- CDBG
 - Ability to apply every year instead of every other year
- LIHTC
 - Ability to write support letter worth two bonus points

- *Housing Symposium in Columbus was very beneficial and had great information.
- *Tracy Turman and GA DREAM Program info great for our citizens.

PROGRESS & PLANS

- Finally have a developer applying for tax credits for a possible development next year, under contract for local property again.
- Housing Authority has plans to build townhome type complex on some of their property in Crosstown neighborhood where we've removed some blight properties.
- Have a private developer interested in developing some small houses for a retirement type community that would be 65 & up (only person I have interested in being a landlord.)

**MAJOR GOAL is still new stick built homes to promote homeownership.

GEORGIA INITIATIVE FOR COMMUNITY HOUSING UPDATE OCTOBER 2024

UPDATE FROM HOUSING NEEDS ASSESSMENT

ITEM ONE

Definition of project area

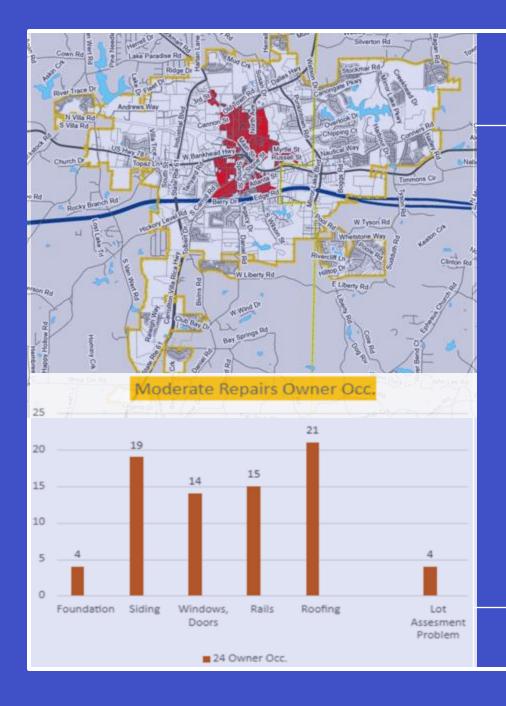

Review of vacant lot inventory and housing ownership status

Moderate versus minor home repairs

ITEM ONE

- City-owned lots provide an opportunity to partner on a GICH demonstration project.
- Of the area studied in the Housing Needs Assessment:
 - 16% of the 649 housing units in the GICH Study Area needed minor or moderate rehabilitation
 - 65 owner-occupied homes and 39 rental-occupied.
 - Total rehab costs are \$865,338 \$366,191 for rentals and \$499,147 for owners
- For the city to operate a Senior Owner-Occupied Housing Rehabilitation Program, it would require dedicated staff for operations and compliance reporting.

ITEM TWO

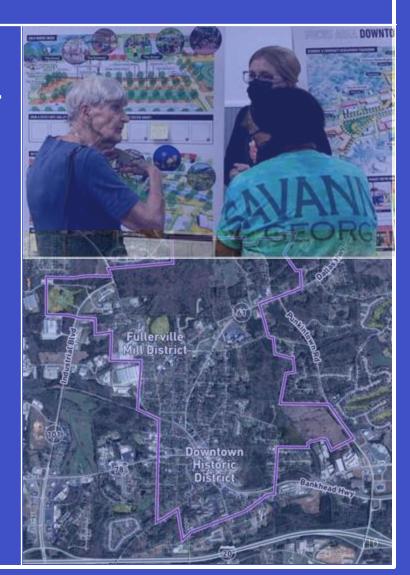

NARROWING FOCUS AND COMMUNITY ENGAGEMENT

Community Buy-in

Project area

Overall Desired Results

SENIOR HOUSING REHABILITATION PROGRAM AND CDBG APPLICATION

Create Senior Housing Rehabilitation Policies and Procedures, application and checklists to outline overall program

Complete CDBG Senior
Housing Rehabilitation
Application with defined
program and statistics from
Housing Needs Assessment

After award, work with the various identified communities to provide an overview of the program and the resources available

DCA CDBG Housing Rehabilitation Program Application will focus on target areas in Fullerville, Anderson-Cleghorn and Thomas Dorsey Communities

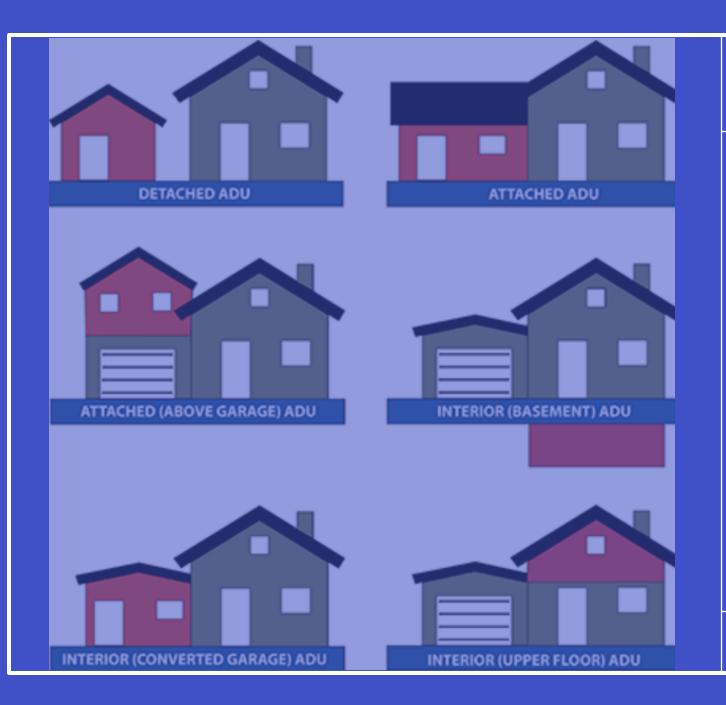

The application will focus on senior owner-occupied units with a focus on safety and exterior improvements to include roofs, siding, windows and porch/ramp conversions

The program will be tiered based on income and the amount of support needed. The intent is for all homeowners to contribute some nominal monetary amount to the project.

We intend to provide multiple engagement opportunities at the community level to explain the program and resources available. A unique component of the program is a requirement to participate in homeowner education.

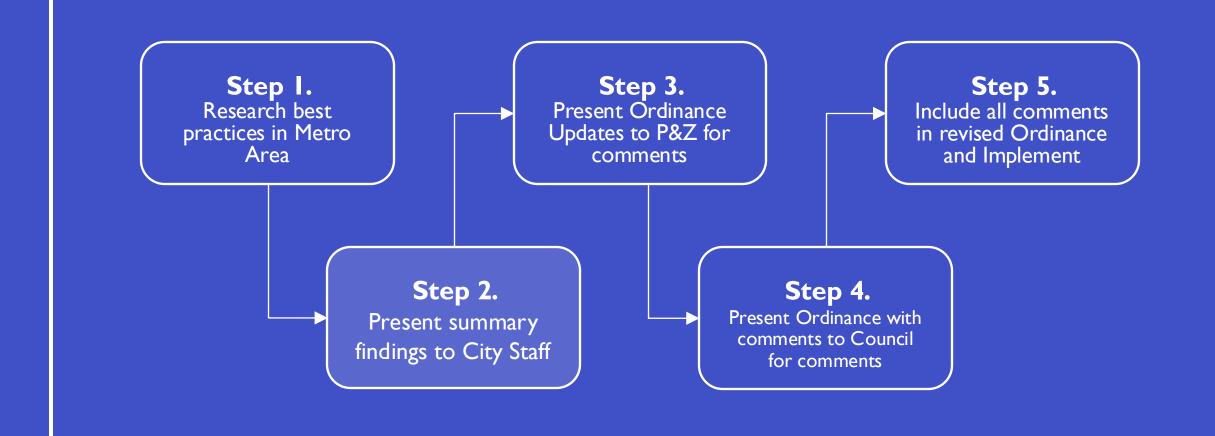

ITEM FOUR

Recommended zoning changes to accommodate infill housing

Change square footage minimums to promote and empower affordability

Review Ordinance and suggest changes to Accessory Dwelling Units

PROCESS FOR RECOMMENDED CHANGES

ITEM FIVE: PUBLIC AWARENESS, ENGAGEMENT AND EDUCATION

As previously mentioned, a unique component to this program is the requirement to attend a homeowner education course.

- Lost two LIHTC projects
- Grants require ca\$h match & FT staff
- Communication and consistency issues

what's next for Chattooga GICH?

- Structured quarterly meetings
- Apply for LIHTC Project in 2025
- Seek ways around inequities and financial challenges
- Continue to recruit team members who can & will be boots on the ground
- Be angels for our community

Agriculture and Tourism Economy

First Steps

lacksquare Applied twice before being accepted as a GICH community.
☐ Set up our Housing Team meeting schedule & Travel Team.
Established good communication with elected officials to ensure they knew our goals to help with housing.
Went to our first GICH Retreat & met with our GICH Facilitator (Austi-Chancey) Retreats funded by our Joint Development Authority.
☐ Set goals for the next 3 years.
Learned about what grants might be available to help us accomplish our housing goals.
Create our GICH brand with a logo, mission statement, social media e

Improving quality of life and economic vitality through locally-driven housing and revitalization.

Next Steps

Looked for potential properties for future housing needs.
Sent Request for Proposal to select LIHTC developers & chose Georgia Communities/Paladin to give our GICH letter to and we were awarded a LIHTC & we'll break ground on a 50 unit workforce development this Fall. Woo Hoo!!
Contracted with The Georgia Conservancy to do a Gilmer County Housing Study then a Town Hall to deliver results to the community.
GICH non-profit partner New Beginnings has purchased land and has started the Pre-development land work for Progress Point.
GICH partner Habitat for Humanity is building in Gilmer County for the first time in over 20 years. Four homes to be built back to back.
☐ Continue to attend GICH Retreats

Next Steps

.. Cont'd

Shared about our housing team members on our Facebook page local newspaper, as well as educational articles on housing. Used FB to help educate our community on the need for workforce housing.
☐ Spoke to local non-profit organizations to let them know what their GICH team was doing to help the community.
☐ Spoke at Town Hall Meeting with the Builders Association & Habitat for Humanity on the need for Workforce Housing.
☐ Spoke on our housing needs to our local Leadership Gilmer Class.
Spoke at a Chamber of Commerce luncheon to keep our business community in the loop of what our GICH team was doing.
Attended & participated in the next local Joint Comprehensive Plan for our community. Housing was a big topic!

Difficult

Steps

- □ Keyboard Warriors
 □ NIMBYs (Not In My Back Yard)
 □ A small group with loud voices spreading fear and misinformation
 □ A particular person creating videos about how bad you and your GICH team and the state GICH program are for the community.
 □ When your next LIHTC zoning request falls on the same night as the hundreds of people that come out against a Crypto Mining Company zoning request and the few loud voices spread misinformation to those at the meeting causing your helpful developer to get blasted publicly at the meeting and the zoning turned down.
- ☐ Another particular person who challenges DCA and the state GICH program causing DCA to have to waste time & money to respond.
- NOTE: Two of our housing team members that are passionate about creating affordable housing were elected as Commissioners

Next Steps

☐ Continue to meet as a housing team, have at least 2 team members continue to attend the retreats and to keep our GICH certification. Break ground on our first LIHTC development "Ellijay Overlook" Continue to be part of the conversation to encourage our elected officials to create a Community Housing Plan. Locate a property and work with a LIHTC developer to apply for another tax credit for another workforce housing development. ☐ Continue support our non-profit partners Habitat for Humanity and New Beginnings efforts. Continue community GICH updates. Continue to apply for other funding opportunities.

Continue to work with NW GA Regional Commission, DCA & other

state partners.

We want to thank the Department of Community Affairs & the University of Georgia as well as Georgia Power and the other partners for funding this important program!! We represent a small community of 30,000 citizens. We are a farming community that also heavily relies on tourism. We don't have big metro money to be able to afford expensive professional planners and with this program we have learned so much and made so many contacts and new relationships that will help our community to solve some of the housing problems we face. We look forward to continue to partner with the GICH program.
