Gail C. Kefentse, Clayton County Agent

Education: B.S. in Family & Consumer Sciences, South Carolina State University.

Programming focus: Chronic Disease Prevention/Healthy Lifestyles, Financial Capability, Food Safety and Preservation.

Clayton County Extension offers a wide variety of programming under the FACS umbrella. In addition to FACS programming, Clayton Ext. also provides Housing (HUD) counseling and parenting education through the PAT program. The SNAP-ED program is an effort to improve the likelihood that participants will make healthy food and lifestyle choices that prevent obesity and promote healthy eating. We are working towards this goal through stand-alone lesson series', on-line educational support, and partnering with our new Mobile Market that will provide a bag of fresh produce for all participants enrolled in the SNAP-ED program during each session. Clayton Ext. also partners with various county, state and federal organizations to provide mandated FACS-based educational series' to all that are eligible.

County media: Clayton TV-23; Clayton News Daily.

UGA Extension offers educational programs, assistance and materials to all people without regard to race, color, national origin, age, gender or disability.
