

Are you a parent of a preschooler (3-5 years)?

Help us find out how parents and children's bodies naturally get "in sync" with each other everyday life at home!

SYnchrony in Naturalistic Contexts Study

What does participation involve?

Parent: Wears a small heart rate monitor (on chest) for 6-8 hours at home

Child: Wears a small heart rate monitor (on chest) and a tiny audio recorder (on clothing) for the same period.

Parents will also complete a few short online questionnaires.

Each family will receive \$100 for participating. Visits can be scheduled at your convenience and will take place remotely (no need to leave your house!)
