

RADON POSTER CONTEST

The Cause: Radon

Radon is a colorless, odorless, and tasteless gas that can kill. The Surgeon General lists it as the second leading cause of lung cancer in the United States. The radioactive element moves through the ground to the surface, and can easily enter homes and buildings. There is no way to detect the amount of radon present unless it is tested.

The Goal: Raise Awareness

Harmful effects of elevated levels of indoor radon gas are a problem. The solution is to reduce the number of homes with elevated levels of radon. This contest is designed to raise awareness for radon testing and inform people of the danger of radon in their homes.

The Participation: Far-Reaching

Students from all over the state are encouraged to participate in the contest. Judges will select three state winners and only the first place winner will be entered into the national contest.

Contest Calendar

- Entries should be postmarked by **November 8, 2018**
- National winners will be notified in mid to late December 2018

Poster Topics

Choose from the following five topics:

1. What is radon?
2. Where does radon come from?
3. How does radon get into our home?
4. Radon can cause lung cancer.
5. Test your home for radon

Send entries to: UGA Gwinnett Extension
Ines Beltran 750 South Perry Street, suite 400
Lawrenceville, GA 30046
