

The Saltmere

ABIGAIL HILL
SENIOR CAPSTONE
DR. RICH

Concept & Inspiration

The design concept for The Saltmere draws inspiration from the calming coastal atmosphere of Cape Cod while subtly incorporating principles of the Arts and Crafts Movement through natural materials, thoughtful craftsmanship, and harmonious design. Muted blues, sandy neutrals, weathered woods, and coastal grasses inspired the palette and overall mood of the space, creating a soft and inviting atmosphere that reflects the quiet beauty of the shoreline. By combining the warmth and authenticity of Arts and Crafts elements with the light, airy feel of coastal interiors, The Saltmere offers a refined and welcoming boutique hotel experience that feels both elegant and restorative.
