

Nutrition Fun

Engaging kids in healthy habits through nutrition education activities!

Interns, Jacob and Claire, host a nutrition education table for STEAM Night (science, technology, engineering, arts, music) at a local elementary school!

DAWG Digest

As we welcome the cooling weather of autumn, we have some exciting new things to share with you! We hope you find our updates exciting and our reminders and resources helpful. Inside you will see our newly credentialed alumni and hear about some exciting new things we're doing related to artificial intelligence!

WHAT'S NEW?

NEW REGISTERED DIETITIANS!

Claire Hawkins,
MS, RD
Clinical Dietitian
CHOA

Sierra Woodfuff,
MS, RD
Clinical Dietitian
CHOA

Joan Song,
MS, RD

Claire Mouser, PhD, RD
Dietitian
Georgia Tech

ARTIFICIAL INTELLIGENCE

We're excited to share that our program is incorporating artificial intelligence (AI) into student learning! Students use AI tools to practice clinical reasoning and refine nutrition care plans. Interns explore AI's role in healthcare and discuss ethics, bias, and professionalism in AI-assisted care.

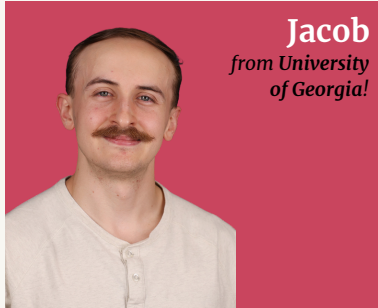

Our goal is to ensure graduates are ready to navigate a healthcare environment where AI enhances—not replaces—the human expertise at the heart of dietetics.

WHAT'S NEW?

NEW INTERNS

Alyssa
from Ohio State
University!

Jacob
from University
of Georgia!

Tyler
from University
of Minnesota!

Claire
from Michigan State
University!

Fibia
from University
of Alabama!

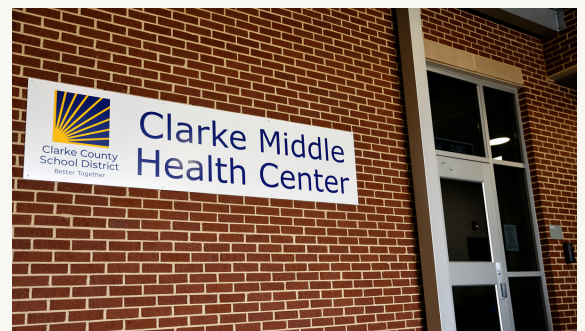

Our new cohort of interns is here and excited about the many experiences that await them over the next 2-4 years! We hope you will help us welcome our newest members of the DI Dawg family!

UNIVERSITY OF
GEORGIA

CLARKE MIDDLE HEALTH CLINIC

Last spring, our dietetic interns started an interprofessional service-learning initiative with the Clarke Middle Health Center in Athens! Interns work with physicians, medical students, nurses, etc. to deliver free nutrition education to staff, students and families within the Athens-Clarke County School District.

Our interns are practicing their communication and counseling skills while also serving local communities. It has been a great learning experience so far, and we look forward to continuing this work in the spring.

WHAT'S NEW?

GENERATIVE AI FELLOW

Our Program Director, Dr. Lauren Housley, RD, was selected for the 2025-2026 UGA's Generative AI & Teaching Faculty Fellows Program.

“AI may transform tools of our profession, but human empathy, ethics, & critical thinking, must guide how we use them. If done well, we can improve health, not just efficiency.”

Tell us what you think about AI use in our field & what you want to learn more about. We want the *preceptor perspective!*
