Recruiting Pregnant Women for a Study on Vitamin D Levels and Hypertension

Are you interested in learning about your vitamin D status?

We are conducting a study to better understand how vitamin D levels may influence blood pressure and the risk of hypertensive disorders of pregnancy.

Qualifications

- 18 years old or older
- Generally healthy
- Less than 14 weeks pregnant

Requirements

Attend 3 in-person visits at the UGA research unit lasting ~1–1.5 hours each
