Form 2.2.3: Public Reporting of Student Performance and Achievement

Student Performance and Achievement

The accredited family and consumer sciences units are required to routinely report - to the public - accurate information about student performance and achievement. Provide the information, format and frequency of routinely reporting to the public reliable information about student performance and achievement. Data regarding number of graduates from the Unit, retention rates, graduation rates, and performance on national exam for the last 3 years are required for the Self-Study Report and serve as the template for what goes on the website and updated annually. Units are encouraged to provide other data that are routinely collected and reported on job placement rates, post-baccalaureate internships placements, performance of graduates on national examinations, etc.

Student Performance and Achievement Reported				Format Reported	Frequency Updated and Reported	Briefly describe your methods of data collection: i.e. where you got your data and how your data were measured
PROGRAM(S)	Year 1	Year 2	Year 3			
	2016-2017__	2017-2018__	2018 - 2019__			
Retention Rate (required)					Updated annually	
Consumer Economics	71.26%	83.95%	80.23%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Consumer Foods	26.6%	14.29%	0.0%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major. Consumer Foods major

						changed name to Culinary Science and Nutrition in 2018.
Consumer Journalism	80.77%	90.91%	94.12%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Culinary Science & Nutrition	N/A	N/A	70%	Unit web page	Updated annually	Consumer Foods major changed name to Culinary Science and Nutrition in 2018. Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Dietetics	91.49%	92.98%	95.00%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Family and consumer Sci Educ	54.55%	35.71%	50.00%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Fashion Merchandising	75.29%	70.41%	75.81%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Financial Planning	73.42%	77.42%	72.79%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Furnishings and Interiors	100.00%	84.21%	100.00%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.

Housing	57.14%	N/A	N/A	Unit web page	Updated annually	Housing major's name changed in 2017 to Housing Management and Policy. Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Housing Management & Policy	83.33%	72.00%	64.29%	Unit web page	Updated annually	Housing major's name change in 2017 to Housing Management and Policy. Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Human Development and Fam Sci	76.4%	74.30%	80.80%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
Nutritional Sciences	5.32%	53.85%	70.18%	Unit web page	Updated annually	Retention rates for each program are calculated annually in the Office of Institutional Research based upon declaration major and changes of major.
	2017	2018	2019			
Graduation Rate (required)						
Consumer Economics	17 graduated in 4 years and 17 graduated in > 4 years.	11 graduated in less than 4 years; 20 graduated in > 4 years	19 graduated in 4 years and 13 graduated in > 4 years.	Unit web page	Updated annually	Graduation rate is calculated and provided by the Office of Institutional Research, University of Georgia for fall semester only
Consumer Foods	2 in 4 years and 6 in > 4 years	4 in 4 years and 3 in > 4 years	N/A	Unit web pages	Updated annually	Graduation rate is calculated and provided by the Office of Institutional Research, University of Georgia; name of Consumer Foods major

						changed to Culinary Science & Nutrition in 2019
