3. RESEARCH, SCHOLARSHIP, AND OTHER CREATIVE ACTIVITIES (0.25 EFT)

I conduct research in three primary areas congruent with my Extension program: 1) implementation of evidence-based interventions, such as the National Diabetes Prevention Program, in Cooperative Extension; 2) community-led, multilevel obesity prevention; and 3) advancing community-engaged translational research. I am frequently asked to collaborate to bring a community-engaged, research-to-practice lens to projects. ***In Nutritional Sciences, the senior author is listed last. If there are more than five authors, "...*** used to indicate authors between 4th and last; except when Berg is between 4th and last.

3.a. Publications - *Mentored graduate student or Extension Agent first or second author; for coauthored publications where Berg is not lead or senior, coauthorship percent contribution indicated: A. 75-100%, B. 50-75%, C. 25-29%, D. 10 – 24%.

4. EXTENSION AND PUBLIC SERVICE (0.70 EFT)

In my role as Extension and Nutrition and Health Specialist, I provide statewide leadership in developing, disseminating, and evaluating Extension nutrition and health programs that impact Georgian's well-being. In my role on the Georgia Clinical and Translational Science Alliance Community Engagement Core, I serve researchers, Extension, and the community through consultation, training, publications, and seminars that facilitate collaborative, community-engaged clinical and translational research. My Extension and research are interwoven as reflected in Section 3. Research, Scholarly Activities.

4.b. Significant Extension Program Leadership – I lead a variety of statewide Extension programs to promote nutrition and health among Georgians. Below are featured programs in which I have invested significant external funding and resources *since promotion to Associate Professor*

National Diabetes Prevention Program (2019 – Present): CDC Recognized, evidence-based lifestyle change program to reduce type 2 diabetes risk (Knowler et al. 2002). **Role:** Train and coordinate lifestyle coaches. Apply for and maintain CDC Recognition status through biannual data submission and outcomes review. Lead national Extension efforts to expand dissemination and implementation and national outcomes reporting. Representative accomplishments:

Training:

- 25 Extension Lifestyle coaches educated and mentored
- 4 Cohorts New Lifestyle Coach Training (76 hrs, 56 hrs. as Master Trainer Select);
- 141 hours of associated Extension agent training (129 since promotion)
- Appointed as Master Trainer for the University System of Georgia (USG) in 2023

Scholarly Output

- 4 published journal articles, 2 published abstracts
- 16 total presentations (15 since promotion, 3 invited)
- 2 mentored doctoral dissertations (Wilson H, Castillo-Hernandez I), and 1 thesis (Thomas D)
- Published online Extension DPP Implementation Toolkit preventdiabetes.extension.org/
- Developing national data collection system prototype: USDA National Technologies for Agriculture Extension grant, \$20,000 (See section 3.b.)
- 12 *Diabetes Life Lines* Newsletters and 10 Extension circulars published (*Right Bite Diabetes*)

Accolades:

- 2021 - Achieved CDC Full PLUS recognition (highest level) for in-person and distance programming
- One national award for multi-state collaboration (Section 3.c. NEAFCS)
- 2 state awards for Extension program and research impact (D.W. Brooks and Chris Todd Outreach)
- Invited to serve on the National Advisory Board for Master Trainer Selects, CDC-approved national training entity, Emory Diabetes Training and Technical Assistance Center

State Impact:

- 458 participants reached with year-long program, 3,143 pounds lost, an estimated \$834,663 in healthcare costs saved avoiding diabetes (Kahn et al., 2017) or reducing weight (Ding et al., 2021, Fallah-Fini, et al. 2017)
- 2024: UGA replaces commercial provider as sole DPP provider for USG Employees.
- 2024: Georgia Department of Public Health contract pending for DPP expansion to priority areas
- Participants showed improvements in diet quality, physical activity, and weight and diabetes risk reduction (Wilson et al., 2023, 2022, Sections 3a. – 3.f.).

Healthier Together: The High Obesity Program in Georgia (HOP) (2016 – 2028): CDC funded project to address obesity through community coalition-led, evidence-based policy, systems, and environmental strategies. Berg's team facilitated creation of community health coalitions, needs assessment, intervention selection, implementation, and evaluation. Coalitions selected community gardens, healthy food pantries and coolers, sidewalk repair, walking trails, playground modifications, and active community design. **Role:** As Nutrition lead I head food access and childhood obesity strategies (family healthy weight). As Co-I, I am a liaison between colleges, academic departments, and Extension and support overall project development, execution, and evaluation. Representative accomplishments:

Training:

- Train and support a minimum of 7 Extension Agents (FACS, 4-H, and ANR), 1 educator, and 2 program assistants annually (12.5 hours in-service training minimum per year)
- Leverage statewide and local/district trainings in support of HOP (e.g., Policy, Systems, and Environmental Change in FACS Extension, Health Equity, Dietary Guidelines)
- Training and materials adapted for use with 12 Robert Wood Johnson Foundation (RWJF) Well Connected Communities Volunteers in rural Georgia

Scholarship

- 3 coauthored journal articles, four Extension factsheet
- 18 presentations (17 presentations since promotion; 3 invited)
- Published online toolkit for community gardens: <https://site.extension.uga.edu/healthiertogether/hop-2018-2023/garden-toolkit/>
- Partnered with investigator (D Warmath) to develop a Civic Mindset tool for assessing coalition member mindsets and identifying ideal coalition members

Accolades:

- 2 state awards, 1 invited national presentation, 1 international presentation
- 2023: Selected for supplement to explore new CDC strategy: Family Healthy Weight Programs
- Invited to share preliminary research findings and best practices at 2024 CDC DNPAO training on the new strategy for 2023-2028: Family Healthy Weight Program (childhood obesity treatment)

Impact:

- Supported the implementation of 22 community gardens, which increased access to fresh vegetables
- HOP enhanced 11 playgrounds, installed 9 walking trails and walkability signage in 4 counties
- Berg led partnerships with 7 food pantries to, 1) increase the capacity and storage of fresh fruits, vegetables, dairy, and meats and 2) adopt and implement healthy food donation/procurement policies

Healthy Georgia Wellness (2018 – Present): Curriculum designed for worksite wellness combines research-based, practice-tested content from all FACS Extension program areas into one curriculum, including 14 lessons: the *Healthy Georgia Wellness Curriculum*. **Role:** Berg provides state-level leadership and support for the curriculum, reviews all lessons, and is a coauthor for 9 lessons.

Training: 31 Extension agents trained

Scholarly Output: One national, one regional, and one state presentation; coauthored 9 lessons

Accolades: 6 national, 5 regional, and 6 state awards

Impact:

- Over 2000 Georgians reached; 81% of participants indicated will probably/definitely use information; Over 50% indicated they would save \$50 - \$200+ per month due to HGW (Stewart et. al, 2022, 2023)
- Agents from 15 states requested the curriculum; 2024 - South Carolina State University adopted for statewide programming

Changing the Culture of Peanut Introduction in Georgia (2019 – 2024): Programs to disseminate new Dietary Guidelines for allergy prevention (DGA 2020) and research on preventing peanut and other food allergies to key stakeholders (Early Childhood Education Providers, School Nutrition Professionals, and Parents/Caregivers). **Role:** I serve as PI, direct one graduate student (Q Whitson), and am responsible for all content development, implementation, and evaluation. The project is ongoing.

Training:

- 36 FACS Extension agents trained; 5 trainings, 100.5 contact hours
- 6 Extension agents piloted 3 modules for Early Childhood Education Providers (ECE)

Scholarly Output:

- One fact sheet published
- 3 Early Childhood Education (ECE) Provider Training Modules developed and approved
- One school nutrition professional training developed (2 hr)
- One parent/caregiver extension lesson plan developed (1 hr)
- Two presentations (Whiston Q, 2024; one invited: Berg and Wagner, 2023)

Impact:

- 32 ECE providers reached. 100% improved knowledge of food allergy prevention guidelines.
- 273 School Nutrition Professionals in 12 counties in Southwest Georgia educated on Food Allergy 101. 90% correctly identified the recommended age for peanut introduction to reduce allergy risk. Most (86%) indicated they would “Definitely” use the information. (Garner C, 2023)

Cooking for a Lifetime of Cancer Prevention: Educational workshop to teach participants cancer prevention lifestyle behaviors (nutrition, physical activity) and screening guidelines for breast, cervical, and colorectal cancer. I significantly revised the curriculum upon arrival in 2015 and updated it annually through 2022 to reflect the most recent evidence-based cancer prevention guidelines and grant requirements (ACS, USDA). I train and coordinate agents to deliver the program and evaluate outcomes

Training:

- Trained 60 FACS agents and 10 American Cancer Society Navigators (542 educational contact hrs)
- 2022: Invited to train 5 Extension agents in Virginia Cooperative Extension

Scholarly Output:

- One published journal article, a training manual, 7 fact sheets, and one Extension bulletin
- 2 international (one post-tenure), and 6 presentations (pre-tenure)

Accolades:

- Featured as Showcase of Excellence at NEAFCS Conference in 2018
- 2020 recognized as a research-tested (highest level) intervention in the SNAP-Ed Toolkit/Library
- Adopted by Virginia Cooperative Extension (2022) and South Carolina State Extension (2024)

Impact:

- 2,100 Georgians and 150 Texans to significantly ($p < 0.05$) improve cancer prevention lifestyle behaviors (diet, physical activity) and screening (Berg et al., IFHE 2022)
- Collaborating with Augusta Medical University partners to expand (Berg A., IHPV, 2023)

4c. Training for External Audiences ($n = 12$; 9 since promotion to Associate Professor)
