### Areas of Applied Research/Outreach and Related Extension Products Developed

**Brain Development:** The focus of this effort is to increase use of brain development research to provide appropriate care and nurturing for young children. This effort includes co-leading the Georgia Better Brains for

Babies (BBB) initiative, training BBB educators, and developing and disseminating print and online resources on early brain development. BBB training has been adopted by Extension professionals in three states (Georgia, Kansas, and Illinois), and efforts to expand into Tennessee are currently underway. A total of 8 different outreach products were developed as part of this effort.

#### Examples of Outreach Products Developed

- Bales, D. & Nickerson, S. (2020) *Better Brains for Babies website* ([www.bbbgeorgia.org](http://www.bbbgeorgia.org)). In-depth educational website for Better Brains for Babies. Updated site design went live in April 2020.
- Bales, D., Roberson, S., Dart, L., Moore, R., Roles, L., & Scredon, K. (2019). *Better Brains for Babies Educator's Guide, Third Edition*. Comprehensive Educator's Guide and presentation slides for Better Brains for Babies two-day Community Outreach Educator training workshop.
- Bales, D. W. (2019). *Building baby's brain* series of 12 peer-reviewed Extension publications in English and Spanish. Athens, GA: University of Georgia Extension.
- Bales, D., Aaron, L. A., Beltran, I., Black, T., Moore, S., Smith, L., & Stewart, R. (2019). *Building Baby's Brain* training curriculum. Series of four 2-hour lesson plans co-developed with FACS Extension agents. Topics include Brain Basics; Attachment, Temperament, and Goodness of Fit; Language and Communication; and Stress and Trauma. Standardized tools collect statewide evaluation data.

***Nutrition and Physical Activity in ECE:*** Healthy Child Care Georgia (HCCG), a component of the UGA SNAP-Ed grant, helps ECE programs reduce children's risk of obesity through policy changes and direct education for teachers, children, and families. The project includes a teacher-implemented 6- curriculum to teach preschoolers nutrition and physical activity, as well as family newsletters and activity bags. The project has reached ECE programs in Clarke, Oconee, Madison, and Elbert Counties, and will expand to additional counties in 2022 and beyond. A total of 6 different outreach products were developed as part of this effort.

#### Examples of Outreach Products Developed

- Bales, D., Coleman, M., & Wallinga, C. (2015). *Eat Healthy, Be Active: An Early Childhood Initiative to Promote Healthy Eating and Physical Activity*. Athens, GA: University of Georgia Department of Human Development and Family Science. Collection of more than 100 hands-on activities to teach nutrition and physical activity to preschool-age children in ECE; includes family activities and bilingual family newsletters to encourage home-school connection. Available at <https://www.fcs.uga.edu/extension/eat-healthy-be-active>.
- Bales, D. & Cotwright, C. (2018). Healthy Child Care Georgia 6-week classroom curriculum. This curriculum includes 7 hands-on activities per week, selected from *Eat Healthy, Be Active*.

#### **Using Technology to Educate Adults and Young Children**

This project explores the use of various types of technology to educate adults and young children. Specific efforts include online course development for ECE teachers through the Georgia Healthy Homes Partnership; digital videos to support teacher training; and co-leadership of the Technology and Young Children Interest Forum through the National Association for the Education of Young Children. A total of 5 different outreach projects were developed as part of this effort.

#### Examples of Outreach Products Developed

- Turner, P., & Bales, D. (2019). *Healthy Environments for Child Care* self-paced online training modules for ECE teachers on Lead, Injury Prevention and Control, Water Safety and Quality, and Asthma. Additional modules on Radon, Emergency Preparation, and Energy Conservation are in development. Course is available at <https://nick.ugaurbanag.com/course/view.php?id=10>.
- Bales, D. (2016). *Content, Context, and Child: Choosing and Using Technology to Support Young Children's Exploration and Learning*. Lesson plan and support materials for ECE teachers on developmentally appropriate uses of technology in the early childhood classroom.
- Bales, D., & Shetterley, K. (2010). *Rockin' Around the Infant Classroom*. Hybrid face-to-face and online training curriculum for infant teachers, developed and evaluated by 10 service-learning students under a UGA Scholarship of Engagement grant. Curriculum includes face-to-face and online training and structured, monitored social networking among participants on a secured site.

**ECE Teacher Training:** This effort focuses on developing, implementing, and evaluating the effectiveness of training for early care and education (ECE) teachers. This work includes co-leadership of the national eXtension Alliance for Better Child Care, mentoring teams of Georgia Extension agents to develop and pilot-test ECE teacher training, and a multi-state SWOT analysis of a literacy curriculum with Nevada Extension. A total of 12 different outreach products were developed as part of this effort.

#### Examples of Outreach Products Developed

Turner, P. & Bales, D. (2020). *Healthy Environments in Early Care and Education* online training course for ECE teachers (<https://nick.ugaurbanag.com/course/view.php?id=10>). Currently includes 4 active modules (Lead, Water Quality, Asthma, and Radon) and 2 modules in development (Emergency Management and Energy Conservation).

Bales, D., Beltran, I., Black, T., Hollingsworth, J., Jordan, L., Moore, S., & Smith, L. (2015). *Basic Core Skills for Child Care* training curriculum. Series of three 2-hour lesson plans co-developed with a team of FACS Extension agents. Topics include Child Abuse and Neglect, Infectious Diseases, and Injury Prevention and Control. Standardized evaluation tools are used to collect statewide impact data. Curriculum has won 8 state, 7 regional, and 5 national awards.

*eXtension Alliance for Better Child Care Website* (<https://childcare.extension.org/>). Co-leader of national team of Extension specialists who co-developed a website to provide information on quality child care for ECE teachers and directors. The site includes about 200 informational pages, 3 searchable databases of activity ideas, and links to state Extension resources related to ECE.

**Prevention of Opioid Misuse in Rural Georgia Counties:** This is a USDA Rural Health and Safety grant-funded collaboration of Extension professionals and opioid researchers in Public Health, Pharmacy, and Public Affairs to pilot-test community-based interventions to build family strengths, increase community awareness of opioid misuse, and help professionals identify and manage opioid misuse in youth and adults. Current efforts include county needs assessment, developing and implementing programs in 4 rural counties, and evaluating the effectiveness of these programs. This project began in September 2019; products are currently in development.
